16 JUN 1982

MEMORANDUM FOR THE RECORD

SUBJECT: Telephone Conversation with James S. VanWagenen, HAC Staff, 16 June 1982 []

25X1

1. Jim VanWagenen called to say that Chairman Addabbo had concurred in the Director's request to go [] over the year-end ceiling. The Chairman's letter will note that the Director's proposal is an issue before the authorization conference, and the HAC approval is contingent upon satisfactory agreement in authorization. []

25X1

2. Jim asked if we were going to respond to their letter [] [] informing them how we are going to pay for overseas pay for the remainder of the year since the HAC denied our request for [] instead placing the funds in the Reserve. I said we were awaiting SAC action, which we expected in about a week, and I guessed that the Senate would go along with the House formulation. If so, I said we would be coming in around the end of next week informing HAC of the status of overseas pay. [] has action to work with the Office of Personnel to set up a briefing for VanWagenen on the Agency's proposed final solution on the overseas differential. We will address funding sources at the June Comptroller's meeting, and VanWagenen can at the same time be advised of our funding plan. []
